The District remodeled our Food Lab to a culinary classroom based on requirement from ADE/CTE inspectors. The remodel included the movement and addition of HVAC units and exhaust fans which required the roof of the classroom be worked on. Approximately a year ago, the roof began to leak exposing equipment to water damage. The roof is ponding water in a low spot.

We had the Trust out to investigate and we have attached their report. The Trust will not repair the roof or fix the drainage on the roof, since we have not had a loss. We will legally seek retribution from the contractor; however, the roof still leaks.
